CD-RW Station

4X write **4X** rewrite **20X** read

**External,
Dual-Port
CD-ReWriter**

CRWP-740

Why settle for an internal CD-ReWriter when you can create your CDs anywhere, any time you want? Why waste an hour burning your CDs when a 4X CD-ReWriter can do it within 15 minutes? EXP's portable CRWP-740 is truly the first 4X portable CD ReWritable Drive! With both Parallel and PC Card (PCMCIA) connections, CRWP-740 has the greatest flexibility to work with your desktop and laptop computers! CRWP-740 uses a unique dust-proof design to reduce the possibility of writing errors and increases product reliability and lifespan. Its 2MB buffer virtually eliminates those dreaded buffer underruns and insures that you'll create discs successfully almost every time with 100% data accuracy.

The CRWP-740 CD Rewritable drive (with the Adaptec Easy CD Creator and DirectCD) supports Multisession, Track-at-Once (TAO), Disk-at-Once(DAO), and Packet Write.

With CRWP-740 you'll enjoy the following:

-  Create your own CD
-  Works with both notebook and desktop
-  Includes both PC Card and Parallel interfaces
-  Win 95/98, NT ready

CD-RW Station **4X** write **4X** rewrite **20X** read
